

CALIFORNIA ASSOCIATION OF CHEMISTRY TEACHERS

An Association Devoted to Improving the Teaching of Chemistry and the Professional Development of Chemistry Teachers

February 24, 1977

Dr. H. Tracy Hall
Dept. of Chemistry
Brigham Young University
Provo, Utah 84602

Dear Dr. Hall:

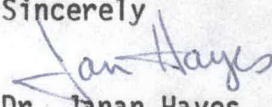

This is to confirm your recent telephone conversation with Paul Steed and your agreement to be the featured Speaker during the California Association of Chemistry Teachers Summer Conference at Asilomar Conference Grounds, Pacific Grove, CA. We have scheduled your presentations on Wednesday, August 24, 1977. In the afternoon from 3:30 - 4:30 pm we would like you to discuss some area of high pressure chemistry that you feel would be of interest to our participants (usually about 75 chemical educators from high school, community college, 4 yr. college and universities). The evening program, where we hope you will tell the story behind the diamond synthesis, is usually attended by many of the spouses in addition to participants. I would ask that in planning your presentation you consider that most of the audience would prefer a general, informative and maybe even entertaining presentation instead of a technical talk during the evening program.

As Paul indicated, we cannot provide you with an honorarium but we will pay you the equivalent of a round trip coach air ticket, one nights lodging and meals at Asilomar, and also the equivalent of a second nights lodging (\$35) to help with your travel expenses. I have enclosed a copy of our preliminary announcement and also a map showing the location of Asilomar since I understand you will be combining this with a visit to family in the Bay area. As more information becomes available I will forward it to you.

Would you please send me titles for your two talks as soon as possible as we will soon be preparing the program for distribution. We will be preparing an abstract booklet to give each of the participants and so I would appreciate talk abstracts by August 1st. We will have 2 x 2 slide overhead projectors available. Please contact me if I can help in any way to make this a more pleasant experience.

I look forward with anticipation and excitement to your portion of the Asilomar Conference. When I started planning this conference your name was at the top of my list of desired speakers and I am so pleased that my dream is coming true.

Sincerely

Dr. Janan Hayes

KEYNOTE ADDRESS, SUNDAY EVENING

DR. GLENN SEABORG
Story of the Transuranium Elements

SHORT COURSE, Monday thru Saturday Mornings

FORENSIC CHEMISTRY
with Dr. Jerry Neufeld, Anderson College, Indiana
Two quarter units credit available from CSC San Bernardino

FEATURED SPEAKER:

DR. H. TRACY HALL
MegaDiamond Corporation
Producer of First Synthetic Diamond
speaking on - The Diamond Story and High Pressure Chemistry

OTHER SPEAKERS:

DR. ALLAN KAHN, San Jose State Univ., "19th Century American Scientists"

DR. DONALD CHARLES, C & H Sugar, "A Chemist in a Sugar Refinery"

JAMES RINEHARDT, E & J Gallo Winery, "The Glass Chemist At Work"

PLUS:

LECTURE DEMONSTRATIONS featuring CACT's best demonstrators
Program on the ADVANCED PLACEMENT PROGRAM AND EXAMINATION

AND:

Theatre Parties
An Evening At The Beach
Non-Participant and Children's Activities

A PERFECT WAY FOR THE CHEMIST AND THEIR FAMILY TO SPEND THE THIRD WEEK
OF AUGUST, IN THE BEAUTIFUL SURROUNDINGS OF THE MONTEREY PENINSULA
