Prof. H. Tracy Hall
Brigham Young University
Provo, Utah 84601

Dear Tracy:

It was with a great deal of pleasure that I learned of your selection, along with Francis, Herb and Bob as the recipients of the 1977 APS International Prize for New Materials. I want to express my sincere congratulations on a well-deserved recognition for your joint work which has been of great technological and scientific importance. I shall look forward to seeing you at San Diego.

With best wishes and regards,

Sincerely,

George A. Samara, Manager
Physics of Solids Research
Department 5130
