MESSAGE

TO Mr. David R. Hall, Vice Pres.
H. Tracy Hall, Inc.
P.O. Box 7533 University Station
Provo, Utah 84601

SUBJECT Visit, 12-7-77, UHP press,
data request

DATE 1-30-78

Dear Dave,

We would like to thank you very much for all that you did during a most pleasant and interesting visit. The helpful transportation and patience with the many photos were especially appreciated.

Reference 10 of the enclosed Listing No. 2 might be of particular usefulness to your hydraulic drilling system. Some of Adams's work could be applicable. If of interest, let me know for details.

Time and money might be conserved by your looking up/ordering items listed on the enclosed IBM card, -re: patenting. We are also sending you two patent booklets under separate cover, hoping they may be useful.

Could you supply the following data on your 300 ton press?

- a) Elec. power requirements- volts, no. phases, amps.
- b) comp. air req.
- c) Approx. outline dimensions, press and console.
- d) Approx. uncrated weight of press.

Thank you again for your fine hospitality. I remain,

Cordially yours,
METROLOGY, INC.

JHW/mtf
