Respected Prof. Hall,

I believe that you could recall my association with you when you visited National Physical Laboratory, New Delhi in Oct. '75 in connection with diamond synthesis. I am trying here for an alternate job, therefore, I need a testimonial from your side, indicating my association with the work we did under your able guidance ~~during~~ ^{on} diamond synthesis. No doubt that we have been benefited a lot by your visit to this place. I shall be grateful if you could kindly write a few lines reflecting my work and association with you during your stay in India, and post it at the above address.

With regards,

40004665

Sincerely yours
Mahesh
