H. H. Schlessin
Associate Professor
Department of Geophysics
The University of Western Ontario
London 72, CANADA

13 January 1972

Dear Prof. Schloessin:

I understand that your binding rings and special anodes were finally delivered to your department yesterday. I hope you will find them in good order.

With respect to the ordering of new hoses for your press, they are made by ANCHOR COUPLING Co., Inc., 385 North Fourth St., Libertyville, Illinois. This company will undoubtedly have a distributor in Detroit. The hoses are designated as Anchor 4s4-1/4-4 super spiral and have 3/8 inch American Standard pipe thread (male) on each end. They can be made up to any length.

I wish you continued success in your endeavors and am looking forward to my visit in April.

Very truly yours,

Tracy
