

9 March 1972

Dr. M.R. Barr, Chairman  
Royal Roads Military College  
F.M.O. Victoria, B.C.

Dear Dr. Barr:

Thank you for your letter of February 14. The dates of April 27 and 28, 1972 will be acceptable for my lectures. Also, the schedule that you have suggested would be just fine.

I will plan to give a general talk as you suggest and the title "Diamonds and High-Pressure" would be a good title. Thank you very much for your interest and for making the travel arrangements for me.

I am looking forward to my visit and to meeting with you and your associates.

Very truly yours,

H. Tracy Hall  
Distinguished Professor

14 February, 1972.

Dr. H. T. Hall,  
Department of Chemistry,  
Brigham Young University,  
Provo, Utah,  
84601.

Dear Dr. Hall:

I am sorry that after asking you to advance your visit from April 27/28 to April 24/25, I have run into conflict with the University of Victoria on April 24. May we return to your original preference of April 27/28? If this is acceptable you would have the following schedule.

April 27:	leave Salt Lake City (United)	820 AM
	arrive Seattle	1040 AM
	leave Seattle (PWA)	155 PM
	arrive Victoria	230 PM
	Talk (C.I.C.-University of Victoria)	500 PM
	Dinner C.I.C.-informal	~730 PM
April 28:	leave Victoria (Air Canada)	815 AM
	arrive Vancouver	840 AM
	arrive University of British Columbia	~915 AM
	Talk U.B.C. Chem. Department	130 PM
	leave Vancouver	410 PM
	arrive Seattle	445 PM
	leave Seattle	525 PM
	arrive Salt Lake City	845 PM

This schedule does not leave you much time at the University of British Columbia which is a pity since it has one of the three best chemistry departments in Canada. If you should care to spend more time at U.B.C. it could easily be arranged. In that case you could leave Vancouver

(2)

April 29            925 AM  
arrive Seattle 1000 AM  
leave Seattle 1210 PM  
arrive Salt  
Lake City            430 PM

As soon as I hear from you I will make the reservations and will send down the tickets about the end of March. Also, although both lectures now involve chemistry departments both groups are still interested in a general talk---  
---"Diamonds & High Pressure" will interest us all--- indeed at the Victoria talk there will be one or two jewelers present.

Yours truly,

M.R. Barr,  
Chairman,  
C.I.C.,  
Vancouver Island Section
